WORK EXPERIENCE

Digital Operations & Growth Manager (Multi-Company Portfolio) — Dubai, UAE

Emirati Owned Companies | July 2025 - Jan 2026

- Managed the **entire digital ecosystem** for multiple UAE businesses at the same time: **websites, social profiles, paid ads, creatives, tracking, and reporting**—ensuring brand consistency and lead generation across channels.
- Built, updated, and optimized websites using **WordPress + Elementor** (service pages, landing pages, UX/UI improvements, contact/lead funnels).
- Planned, launched, and optimized **Meta Ads (Facebook/Instagram)** with audience strategy, creative testing, budget control, and performance reporting focused on **lead quality and CPL/CPR efficiency**.
- Set up and troubleshot **conversion tracking (Pixels/Tags, form-submit events, funnel measurement)** to ensure campaigns were fully measurable and scalable.
- Created premium marketing assets using **Canva Pro + Adobe Creative Cloud** : posters, carousels, reels, templates, brand kits, bilingual-ready content.
- Developed and managed a **custom Meal Planner web app/plugin** using **VS Code + Cursor AI** with structured database workflows **(MySQL/WordPress custom tables)**, admin/client pages, weekly plan flows, and ongoing bug fixing/improvements.

Companies Managed

1. **180 Degree — Healthy Meal Plans + Web App Plugin + Menu Planning**
   - Designed and built a custom **meal-planning Web-App system** inside WordPress, including admin/client flows and mobile-first UI pages.
   - Developed structured data architecture (custom tables like meal plans, menus, daily selections) and operational workflows for kitchen/admin usage.
   - Led debugging and feature improvements across front-end and logic layers (week navigation, saved week states, profile loading issues).
   - Created content + growth assets: pricing posters, plan naming, captions, ad creatives, and scroll-stopping hooks tailored for health-focused customers in the UAE.
   - Tools & stack used hands-on: **WordPress, Elementor, MySQL, Cursor IDE, and performance content on Meta Business Suite**.
